Returning to events under the
"new normality": General
provisions, event risk
assessments and medical
provisions

- Introduction
- Series of webinars
- Housekeeping
- Q & A

General

- The need of guidelines – Triathlon is considered as a moderate risk sport (NEW UPDATED VERSION AVAILABLE)

<https://education.triathlon.org/mod/page/view.php?id=6145>

- Medical Task Force among endurance sports' IFs

The screenshot shows the 'World Triathlon Education Hub' website. On the left is a login form with fields for 'Username / email' and 'Password', a 'Remember username' checkbox, a 'Log in' button, and a 'Lost password?' link. The main content area has a blue header with the 'triathlon DEVELOPMENT' logo and the title 'World Triathlon Education Hub'. Below the header is a 'Welcome to the World Triathlon Education Hub' section with a photo of people at a pool and a text block explaining the hub's purpose. A prominent red button says 'Access Open Content Including COVID-19'. Below this is a grid of navigation buttons: 'Coaches' (blue), 'Technical Officials' (orange), 'Triathletes' (purple), 'National Federations (under development)' (grey), 'Activators' (green), 'Facilitators (under development)' (grey), 'Mentors/Mentees (under development)' (grey), and 'Conferences' (orange).

Approach

- Work with your public health authorities
- It is important what ever you do, to do it right
- No more than necessary (required) and no less than essential
- Assess the risk of every area of your race (venue and competition)
- Produce the concept paper
- Decide how many participants you can safely host at your race vs. how you can host safely your estimated participation numbers
- Share best practices

- Panel discussion

WHO Risk Assessment and Mitigation Checklist for Mass Gatherings

- World Triathlon strongly recommends the use of the WHO risk assessment tool by everyone
- World Triathlon advises you to conduct the event only if it falls in Very Low or Low risk category
- No such a thing as “zero” risk event
- WHO’s mass gathering technical guidance and tools

Online risk-assessment tool for endurance event organisers

- Outbreak Prevention Task Force formed by World Athletics with the International Institute for Race Medicine (IIRM), and including the medical chairs of World Triathlon and four further global sports federations.
- The tool is intended to help organisers assess the risk of staging an event, establish the preparedness of the community and the event organisation for the risks of Covid-19, and clarify any necessary steps to further mitigate and reduce the risk.

The tool is available at: idom.worldathletics.org

- Panel discussion

Individual's responsibility

- WHO Recommendations
- ITU [Medical Guidelines for International Athletes, Team Coaches, TOs and Staff](#)

Medical provisions and recommendations to the event organisers

- WHO Mitigation list
- World Triathlon COVID-19 Outbreak - Guidelines for RMDs and MDs
<https://www.triathlon.org/about/downloads/category/medical>

Participants' health screening

- Pre-Travel and Pre-Event Health Checks
- Pre-Travel Medical Certificate
- Pre event questionnaire & health screening (temperature check)

Use of mask/mouth-nose face covering and rubber/disposable gloves

- World Triathlon strongly recommends the use of masks/mouth-nose face covering for officials and other accredited clients that are in contact with athletes (e.g. registration, transition zone, start area, post finish area). The use of face shields is strongly advised in areas with high risk, such as the finish line.
- Athletes are advised to wear masks/mouth-nose face covering during any non-competition activity (e.g. registration, race package distribution/race package pick up)
- the use of rubber/disposable gloves is strongly recommended for the volunteers assigned to the finish area, classifiers and medical staff.
- **Please be reminded when wearing rubber/disposable gloves and masks/ mouth-nose face covering you still need to disinfect**

- Panel discussion

Q & A

Date	Time CEST	Topic	Language	Panel
08 July 2020	4:00:00 PM	Part 1: Returning to events under the "new normality": General provisions, event risk assessments and medical provisions	Spanish	Enrique Quesada, Dr. Humberto Aguillar, Dr. Luis Coira Nieto
14 July 2020	12:00:00 PM	Part 2: Returning to events under the "new normality": Athletes' Services Provisions	English	Thanos Nikopoulos, Stefane Mauris, Johanne Suss-Burckel , Jo-Annie Charbonneau
15 July 2020	4:00:00 PM	Part 2: Returning to events under the "new normality": Athletes' Services Provisions	Spanish	Enrique Quesada, Jaime Caraval, Jorge Garcia
28 July 2020	12:00:00 PM	Part 3: Returning to events under the "new normality": Venue Operations Provisions	English	Thanos Nikopoulos, Andrew Taylor, Ghislain Melancon
29 July 2020	4:00:00 PM	Part 3: Returning to events under the "new normality": Venue Operations Provisions	Spanish	Enrique Quesada, Gustavo Neves,, Esteban Benitez
04 August 2020	12:00:00 PM	Part 4: Returning to events under the "new normality": Race Operation Provisions	English	Thanos Nikopoulos, Richard Belderok, Konrad Straube
05 August 2020	4:00:00 PM	Part 4: Returning to events under the "new normality": Race Operation Provisions	Spanish	Enrique Quesada, Felix Molina, Miguel Alejandro Fernandez Vazquez
