

The webinar will feature a panel of experts who will discuss:

- Medical Tent Setup
- Emergency issues in the water
- Medical related identification and transportation on the bike and run.
- Dealing with urgent life threatening care issues
- Information collection at registration to aid in emergency situations.

We are fortunate to have an expert panel to share different perspectives:

- **TK Miller**, MD, Virginia Tech School of Medicine, Ironman Global Medical Advisor
- **Chris Troyanos**, ATC, Boston Marathon Medical Leader
- **Humberto Aguilar**, MD, World Triathlon Medical Delegate, Triathlon Mexico
- **Yasser Hosny**, MD, World Triathlon Medical Committee, Egypt Triathlon Federation
- **Richard Belderok**, Chief Information Officer, Challenge Family
- **Wynand Wyngaardt**, Response Plus Holdings
- **Thanos Nikopoulos**, Head of Operations, World Triathlon
- **Mike Wien**, Chair of the Global Triathlon Safety Task Force as moderator

This webinar is ideal for race directors, members of the medical team, race operations managers and coaches, athletes and volunteers who would like to know more about the planning to keep participants safe. The webinar will be conducted in English.
