

# Going Forward – Race Management Spanish Triathlon Federation

Event type	Event	Location
National	Cto. España Triatlón Sprint (900)	Pontevedra
International	Copa de Europa Junior <b>(100)</b>	Banyoles
National	Cto. España Triatlón Olímpico (200)	Banyoles
National	Cto. España Triatlón Relevo Mixto <b>(240)</b>	Banyoles
National	Cto. España Triatlón Media Distancia <b>(550)</b>	Bilbao
International	Copa de Europa de Triatlón <b>(120)</b>	Barcelona
National	Copa del Rey y Copa de la Reina Triatlón <b>(1500)</b>	Roquetas
National	Cto. España Duatlón <b>(600)</b>	Soria
International	Copa del Mundo Triatlón (130)	Valencia

It is important to understand Spain political structure to see how we had to lead trying to go back with events:

- Spain has (1) central government.
- ✤ And (19) regional governments.
- During the pandemic period and until december 2020, all the sport events, were under the rules of the regional governments health areas.
- So we were forced to deal with the different governments to try to adapt our sport to the regional health rules.
- Since the beginning we had totally clear that we had to push to go back ASAP, and Triathlon was the first sport to present a plan to the Spanish Government, and this plan was followed by other Federations making adaptations. This was in a big part, thanks to World Triathlon Sport Department, that worked hard to have a plan as well.

During 2020 and before going back to events:

- ✤ We presented our plan.
- All the Regional Federations presented their plans based on our plan.
- We prepared a full medical plan for the sport, with a core Group of doctors.
- We prepared other LOC's and Technical Officials to be ready to go back to sport ASAP.
- We adapted our plan to specific plans depending on the event format and locations.
- We created exceptions to the competition rules, trying to adapt the rules to criterias forced by the authorities when we were implementing events under time trial format.
- We had continuous meetings with Regional Federations, LOC's, Clubes, etc.

From opened events full of spectators To closed events withour spectators We had to créate our "STADIUM" only for athletes and Staff

Why we could go back to events by August 2020?

Triathlon plans, had full credibility.

- Secured venues, changing traditional locations to alternative locations, and changing totally the concept. This was the key of the success.
- Access control.
- ✤ Courses design.
- Venue size.
- Access protocol (Staff, athletes, coaches, volunteers, technical officials, authorities).

Coaches control.

Our organizing model, were is the Federation working and organizing directly with the cities, is a big value.

We setup participation limits, depending on the circunstances.

#### Adapted signage and images

#### **Venue design / courses far from spectators**

El Centro Niemeyer, permite, NO solo aislar la sede de manera completa, si no que la configuración que se plantea, ofrece unos recorridos totalmente a puerta cerrada

#### **Events with Spectators**

- We fixed a limit of spectators per day
- Spectators had to register previously
- They had a dedicated space only for espectators
- They were coming to the entrance
- They went through the same process as accredited people but only to Access their dedicated space
- With our online system we knew at any time who was in the área or not, as you can see on the images on the right

#### **Ahletes Registration**

1.

2.

3.

### **Medal Ceremonies**

- Cases: Barcelona (EC) and Valencia (WC)
  We planned in a efficient way, the procedure to do tests the day before the event
- Athletes were informed to attend the test in a specific time frame
- We planned 3 spots
- The athletes were tested
- They waited for 15' aprox. Before knowing the result
- The doctor informed about the result
- It is important to plan properly the space; preferibly open and wide spaces (photo – Barcelona in a football field)

#### Pontevedra, ejemplo de organización de competiciones al aire libre

#### REDACCIÓN

PONTEVEDRA. El Campeonato de España de Triatlón Sprint celebrado este fin de semana en Pontevedra ha sido la primera prueba de esta modalidad celebrada tras la pandemia, que a su vez ha sido ejemplo de organización de un evento de competición masivo al aire libre.

Así lo declaró ayer Carme da Silva, la portavoz del gobierno local, quien aseguró que «se decidió mantener la prueba porque se garantizaba que las medidas de seguridad iban a ser muy estrictas. De hecho se desenvolvió con normalidad y la federación lo que va a hacer con las imágenes de esta prueba es presentar a todas las federaciones de deportes al aire libre como muestra de como hay que organizar un evento al aire libre y de participación masiva con todas las medidas de seguridad».

De esta manera, Da Silva apuesta por la celebración de este tipo de eventos, siempre manteniendo las condiciones habiendo servido una vez más como ejemplo deportivo.

#### Pontevedra, ejemplo de organización deportiva

### ✤ 2021 is presented as follows:

- We have secured the calendar (national and international events), unless the situation comes into a difficult scenario.
- ✤ We have more licenses than in 2020.
- We need to keep the consistency of what we have implemented in 2020.
- ֎ We don't want to take risks.
- We are convinced that our model Works and is an example for other Sports.
- We need to engage continuosly with our stakeholders (athletes, clubs, coaches, technical officials, LOC's, cities), in a way that they feel that FETRI is supporting them.
- ✤ We need to be ready for any change in:
  - Competition rules
  - Event formats
  - 🔁 Etc.
